[joemar-ceneza.vercel.app](https://joemar-ceneza.vercel.app)

I am an IT graduate with a strong interest in Web Development and Programming. I have a solid understanding of the fundamentals and the ability to quickly learn and become proficient in new technologies and coding languages. I am collaborative, organized, and efficient when working in a team setting. I am eager to find an opportunity that will enable me to further develop my skills in web development and grow as a professional.

## EMPLOYMENT HISTORY

### ACCOUNT COMPLIANCE

Leekie Enterprise Inc.

November 2024 - Present

- Develop and maintain Python-based automation tools to streamline compliance monitoring, data extraction, and risk detection processes.
- Utilize automation frameworks (e.g., Playwright) to collect, validate, and process operational data efficiently.
- Implement and enforce compliance policies and internal control procedures in accordance with regulatory and company standards.
- Monitor player account activities, transactions, and betting patterns to detect suspicious behavior, fraud, collusion, or policy violations.
- Conduct risk assessments and investigations on flagged accounts to ensure adherence to compliance and operational guidelines.
- Identify potential AML (Anti-Money Laundering) and responsible gaming risks, escalating high-risk cases to management when necessary.
- Analyze transaction histories, IP logs, device fingerprints, and behavioral data to prevent abuse, multi-accounting, and bonus exploitation.
- Address non-compliance issues by implementing corrective actions and recommending preventive measures.
- Prepare and submit timely compliance reports to the Operations Officer and senior management.
- Collaborate with operations, risk, and technical teams to enhance fraud detection processes and system controls.
- Maintain accurate documentation of investigations, findings, and case resolutions.
- Ensure strict confidentiality and data protection when handling sensitive player information.

## SOFT SKILLS

- Strong analytical and problem-solving skills with a logical approach to debugging and system optimization
- Strong analytical and problem-solving skills with a logical approach to debugging and system optimization
- Ability to work independently and manage projects with minimal supervision
- Effective time management skills in handling multiple development tasks and meeting deadlines
- Strong collaboration skills when working with cross-functional teams (operations, compliance, technical teams)
- Adaptable and quick to learn new technologies and frameworks
- Excellent troubleshooting skills for identifying and resolving system and application issues
- Strong documentation and communication skills for reporting technical findings
- Committed to continuous learning and staying updated with modern web technologies
